

Tokushimakita High School

1 Prospectus 2025

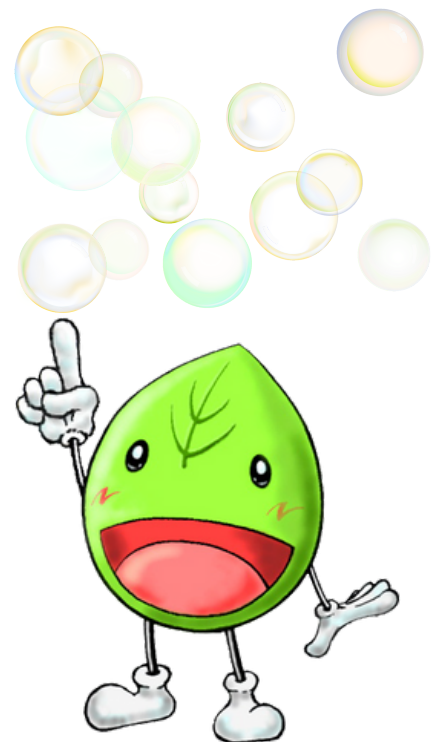

Tokushimakita High School is one of the best academic high schools in Tokushima Prefecture. It is situated in the northern part of Tokushima city and has 21 classes and 806 students. Established in 1995, the school provides a high level of secondary education to meet the needs of Tokushima Prefecture. It has two main courses: a general education course and an international English course, which is unique in Tokushima. Each course has two subcourses : science and humanities. Education is enjoyable through a stable environment, efficient organizational structures, caring teachers, and a curriculum for all ability groups, with firm but fair discipline and mutual respect. In 2003, it was designated as a Super English Language High School and has emphasized English language education and international communication. The school has sister school relationships with senior high schools in Germany, New Zealand, and Thailand.

【General Course】

The General Course offers the curriculum which caters to each student's interest, future goals, aptitude and abilities. In the 1st year, all students study the same subjects. In the 2nd and 3rd years, they can choose to enroll in either the Humanities Subcourse or Science Subcourse. Both subcourses offer a variety of elective subjects which help students to study actively to improve their academic abilities in the area of study they are interested in.

General Course students can enroll in either the Humanities or Science Subcourse according to the future goals they have in mind. The Humanities Subcourse focuses on studying the Japanese literature, Social Studies and English. In this course, students can gain wider perspectives and flexible way of thinking. In the 3rd year, students can choose either the Humanities Subcourse A or B according to their future needs.

【International English Course】

The International English Course focuses on English language education and cross-cultural education. The characteristics of this course place emphasis on communicative competence, with high-level English teaching, abundant international exchange opportunities, and an overseas study tour.

In the first year, students study the same subjects. In the 2nd and 3rd years, they can choose to enroll in either the Humanities Subcourse or the Science Subcourse to effectively study the subjects needed for their goals.

The goal of this course is to develop well-informed individual resources who can make active contributions to the international world.
